

Do something amazing. Build your own business and give people a better way to power their home and save money.

Solar Ambassadors help spread the word about clean, more affordable energy from SolarCity.

All you have to do is help homeowners sign up for free consultations. Our Energy Consultants will contact all of your potential customers to go over all of the details.

You'll receive \$250 for every one of your customers who signs a SolarCity contract and installs solar on their home. You'll also be rewarded for recruiting additional Solar Ambassadors. Every new customer that they sign up earns you additional rewards.

This is your opportunity to change the world and make some money at the same time.

We believe in you as much as you believe in us.
