Definitions for Balance Sheet Accounts

1000 Cash In Bank: This account represents the balances in the Association's checking account as of the end of the financial period.

1140 Accounts Receivable: Fees owed to the Association as of the end of the financial period, usually late or delinquent assessments.

1235 Prepaid Expenses: Amounts pre-paid for expenses like fire protection, maintenance/monitoring contract, and elevator maintenance contract.

1265 Prepaid Insurance: Amounts paid ahead of the current month in insurance premiums. Oftentimes, certain premiums are paid yearly.

1790 General Operating: Operating funds set aside for seasonal and unexpected expenses. If this account goes into a negative position, it becomes account 1130 and means you have borrowed from reserves to pay operating expense.

1908 Replacement Reserve: Amounts in your reserve account.

2100 Accounts Payable: Expenses for the month of the financial statement which were unpaid at end of previous month (paid in the following month). For example, a utility invoice received in June, but for utilities used in the month of May.

2140 Prepaid Account Receivables (A/R): Assessments paid in advance of the assessment date during the financial reporting period, even if they are paid only one day in advance.

2799 Contract Liabilities: This account is used to account for reserve assessments, special assessments, and other contract revenue that has not been spent on the obligation for which they were assessed.

3100 Designated Replacement: The top amount represents the amount in your Reserve Account as of the prior year end. The bottom number represents change in amounts to the Reserve Account in the current year.

3145 Undesignated Operating Fund: The top figure is the net carry-forward cumulative profit of the association as of the prior year-end. The bottom number is the amount of expenses over revenue for the current year.

5900 Contra Revenue: This account is used to adjust the value of operating assessments revenue. The account will be a negative revenue account and will decrease total assessments by the amount of billed assessments the Association does not expect to collect.

5950 Contract Revenue Transfers: This account is used to report the amount of contract revenue transferred to the contract liability account. Reserve assessments not used to pay current major repairs and replacements will be moved to the contract liability account via an adjusting entry to this account. Using this account allows the reader of monthly financial reports to see the amount of reserve assessments billed and compare that to budgeted reserve assessments.

Please note: there are two income and expense statements. The first one is for operating expenses and the second is for reserve expenses.
